Future Ridge Corner Unit options being considered:
Different Angular Degrees

Dimensions:
Seat Width: 43"
Unit Width: 58.25"
Depth: 33.25"
Back Height: 32.5"

The Ridge Waterfall Edge Corner Unit was designed for a University in Washington State that desired a corner unit that was both functional and comfortable to adjoin their Ridge Chairs. This unit's comfort is attributed to the usage of the patented Morley Spring System, an intelligent system that adjusts to your size, shape and weight. Making its debut at a national trade show, the Ridge Corner unit gained popularity throughout the educational market, selling the concept before the final design completion.
